

Cognizance Club

Repair The Page

Coordinator 1 - Nehal Khan (+91 8438394310)

Coordinator 2 - Rohit Prasanna (+91 8939692572)

Coordinator 3 - M Jahnvi (+91 9014848165)

Participants will be provided with a webpage containing multiple functionalities but riddled with errors and incomplete features.

The challenge is to:

1. Debug the code to fix existing issues
Do Not Remove the Existing Functionality or its Purpose.
2. Enhance the website by adding new innovative features like designs using CSS or transitions using JS etc.
3. **INTERNET - ✗**

Participants must rely exclusively on the customized GPT platform provided by the event organizers for guidance and assistance. This platform will get the prompt from the participants and send it to the coordinators system. The coordinator will review the prompt and check the cost criteria.

Cost criteria is applied for the usage of the GPT assist. Initial budget for the participants will be 500 points depending of the query list the cost varies and will be spent. This will be published during the event.

After reviewing, the GPT Answer will be sent to the participants system.

Winners will be selected based on the quality of the website.

In case of a tiebreaker, the team with more points will be chosen as the winner.
