Participants will fine-tune or integrate a pre-trained language model to create a Q&A system specifically tailored to answer questions about our institute(Amrita Vishwa Vidyapeetham).

Objective:

1. Crack the 3 levels with appropriate prompts according to the desired answers for evaluation.
2. Level 1 will be easier and direct questions to be prompted for.
3. Level 2 will be about generating paragraph type prompt answers.
4. Level 3 will be more case study & logical based questions.

Participants will be provided with necessary resources like datasets and more on the day of the event in GitHub.

Forms will be provided for submission.

Only GitHub links are allowed consisting codes and screenshots of the prompts & answers.

To Avoid:

1. **Plagiarism will not be appreciated.**
2. **Manipulation of answers to be avoided.**

Winners will be selected based on the answers generated through the Q&A system built and innovative prompts.

Best models and answers will be awarded.

All the best !!!
