

# Hackethix Workshop

## Unlock the Secrets of Cybersecurity!

### Event Overview:

- **Event Name:** Hackethix Workshop
- **Date:** 29th January 2025
- **Time:** 13:30 - 15:20 (2 hours)
- **Location:** CSE Lab 2
- **Contact Person:** Subramanian R ( 📞 +918870723777)
- **Registration Link:** [Register Here](#)

### What You'll Learn:

Join us for an exciting hands-on session where you'll learn how to tackle real-world cyber threats. Topics covered include:

- 📧 **Phishing Attacks**
- 🔑 **Wi-Fi Password Cracking**
- 🖱️ **Bad USB Devices**
- 🧑 **Exploring the Dark Web Safely**
- ⚡ **Remote Access Trojans (RATs)**
- 🎯 **Ransomware Attacks**
- 🌐 **Web Exploitation**

Whether you're a tech enthusiast, student, or professional, this workshop will equip you with cutting-edge tools and techniques used by ethical hackers to defend against malicious attacks. Don't worry if you're not an expert – everything will be explained in a beginner-friendly manner with live demos!

### Prerequisites:

To get the most out of this workshop, make sure you have a **Linux virtual machine** installed on your laptop. If you haven't installed it yet, here are some helpful resources:

- [Install Kali Linux on VirtualBox](#)
- [Linux Tutorial for Beginners](#)

We'll explore various hacking techniques and tools used by hackers, so having this setup ready will ensure a smooth experience.

### Why Attend:

- Learn practical, real-life hacking skills.
- Gain insights into how attackers operate and how to defend against them.
- Get hands-on experience with ethical hacking tools.
- Network with like-minded tech enthusiasts.
